MEDICAL.

Contagious.

I am a native of England, and while I was

in that country, I contracted a terrible blood poison, which caused me to be confined to bed

as an out-door patient at Nottingham Hospital, England, but was not cured. I suffered

and was covered with sores all over my body

and limbs. Finally I completely lost all hope

in that country, and sailed for America, where

was a prominent physician in New York having

no connection with the hospital.

I sought medical advice in New York, Specific,

and I determined to give it a trial. I took six

bottles, and I can say with great joy that they

have done me good, and as well as I ever had

in my life.

L. PHED HALFORD,

New York City, June 12th, 1885.

In view of last year's I contracted

bad blood, and being in Savannah, Ga., at

the time, I went into the hospital there for treat-

ment, but was not cured. I suffered

and was covered with sores all over my body

and limbs. Finally I completely lost all hope

in that country, and sailed for America, where

was a prominent physician in New York having

no connection with the hospital.
